USN

Fifth Semester MCA Degree Examination, Dec.2018/Jan.2019 Programming using C# •NET

Time: 3 hrs.

Max. Marks:100

Note: Answer any FIVE full questions.

1	a.	Explain the components of Net framework with the help of architecture diagram.	
			(12 Marks)
	b.	Explain the iterative statement in C# with examples.	(08 Marks)
2	a.	Explain value type, Reference type and pointer type with respect to C#.	(10 Marks)
	b.	Briefly explain pre processor directive in C#.	(06 Marks)
	C.	Describe the significance of is and as operator.	(04 Marks)
3	a.	Explain various method parameters used in C#.	(08 Marks)
	b.	Write a short notes on :	
		i) Partial classes and methods ii) Indexers.	(08 Marks)
	C.	Write a program in C# to read a jagged array and display the sum of all the elem	
		array.	(04 Marks)
1	0	How is method overriding is different from method overloading illustrate with exa	amnla
4	a.	from is method overriding is different from method overloading mustrate with exa	(08 Marks)
	b.	How do you enforce encapsulation using accessors and mutators and class proper	
	0.		(08 Marks)
	C.	How does C# support multiple inheritance explain with example.	(04 Marks)
5	0	Havy delegates are used in C#2 Discuss multipast and single east delegates with	avamalaa
5	a.	How delegates are used in C#? Discuss multicast and single cast delegates with	
5			(10 Marks)
5	a. b.	How delegates are used in C#? Discuss multicast and single cast delegates with "Catching the exceptions programmatically is good and necessary mechanism" justiable example.	(10 Marks)
5		"Catching the exceptions programmatically is good and necessary mechanism" j	(10 Marks) justify with
	b. c.	"Catching the exceptions programmatically is good and necessary mechanism" j suitable example. Explain "checked" and "unchecked" keywords with respect to C#.	(10 Marks) justify with (06 Marks) (04 Marks)
5	b.	"Catching the exceptions programmatically is good and necessary mechanism" is suitable example. Explain "checked" and "unchecked" keywords with respect to C#. Explain the implementation of combobox control, Group box control and respect to C#.	(10 Marks) justify with (06 Marks) (04 Marks)
	b. c. a.	"Catching the exceptions programmatically is good and necessary mechanism" is suitable example. Explain "checked" and "unchecked" keywords with respect to C#. Explain the implementation of combobox control, Group box control and respect to windows forms.	(10 Marks) justify with (06 Marks) (04 Marks) menus with (10 Marks)
	b. c.	"Catching the exceptions programmatically is good and necessary mechanism" is suitable example. Explain "checked" and "unchecked" keywords with respect to C#. Explain the implementation of combobox control, Group box control and respect to windows forms. Write a program for addition of two numbers from text boxes display the res	(10 Marks) justify with (06 Marks) (04 Marks) menus with (10 Marks) ult in form
	b.c.a.b.	"Catching the exceptions programmatically is good and necessary mechanism" is suitable example. Explain "checked" and "unchecked" keywords with respect to C#. Explain the implementation of combobox control, Group box control and respect to windows forms. Write a program for addition of two numbers from text boxes display the resusing button click event.	(10 Marks) justify with (06 Marks) (04 Marks) menus with (10 Marks) ult in form (06 Marks)
	b. c. a.	"Catching the exceptions programmatically is good and necessary mechanism" is suitable example. Explain "checked" and "unchecked" keywords with respect to C#. Explain the implementation of combobox control, Group box control and respect to windows forms. Write a program for addition of two numbers from text boxes display the res	(10 Marks) justify with (06 Marks) (04 Marks) menus with (10 Marks) ult in form
	b.c.a.b.	"Catching the exceptions programmatically is good and necessary mechanism" is suitable example. Explain "checked" and "unchecked" keywords with respect to C#. Explain the implementation of combobox control, Group box control and respect to windows forms. Write a program for addition of two numbers from text boxes display the resusing button click event. Write a short note on MDI window.	(10 Marks) justify with (06 Marks) (04 Marks) menus with (10 Marks) ult in form (06 Marks) (04 Marks)
	b.c.a.c.	"Catching the exceptions programmatically is good and necessary mechanism" is suitable example. Explain "checked" and "unchecked" keywords with respect to C#. Explain the implementation of combobox control, Group box control and respect to windows forms. Write a program for addition of two numbers from text boxes display the resusing button click event. Write a short note on MDI window.	(10 Marks) justify with (06 Marks) (04 Marks) menus with (10 Marks) ult in form (06 Marks) (04 Marks)
	b.c.a.c.	"Catching the exceptions programmatically is good and necessary mechanism" is suitable example. Explain "checked" and "unchecked" keywords with respect to C#. Explain the implementation of combobox control, Group box control and respect to windows forms. Write a program for addition of two numbers from text boxes display the resusing button click event. Write a short note on MDI window. Explain the procedure for connecting to a Database and executing insert, update queries.	(10 Marks) justify with (06 Marks) (04 Marks) menus with (10 Marks) ult in form (06 Marks) (04 Marks)
	b.c.a.b.c.	"Catching the exceptions programmatically is good and necessary mechanism" is suitable example. Explain "checked" and "unchecked" keywords with respect to C#. Explain the implementation of combobox control, Group box control and respect to windows forms. Write a program for addition of two numbers from text boxes display the resusing button click event. Write a short note on MDI window. Explain the procedure for connecting to a Database and executing insert, update queries.	(10 Marks) justify with (06 Marks) (04 Marks) menus with (10 Marks) ult in form (06 Marks) (04 Marks) e and delete (10 Marks)
7	b.c.a.b.c.a.b.	"Catching the exceptions programmatically is good and necessary mechanism" is suitable example. Explain "checked" and "unchecked" keywords with respect to C#. Explain the implementation of combobox control, Group box control and respect to windows forms. Write a program for addition of two numbers from text boxes display the resusing button click event. Write a short note on MDI window. Explain the procedure for connecting to a Database and executing insert, update queries. Explain ADO·Net entity frame work. Write a short note on ADO·NET objects.	(10 Marks) justify with (06 Marks) (04 Marks) menus with (10 Marks) ult in form (06 Marks) (04 Marks) e and delete (10 Marks) (05 Marks) (05 Marks)
	b.c.a.b.c.a.b.	"Catching the exceptions programmatically is good and necessary mechanism" is suitable example. Explain "checked" and "unchecked" keywords with respect to C#. Explain the implementation of combobox control, Group box control and respect to windows forms. Write a program for addition of two numbers from text boxes display the resusing button click event. Write a short note on MDI window. Explain the procedure for connecting to a Database and executing insert, update queries. Explain ADO·Net entity frame work.	(10 Marks) justify with (06 Marks) (04 Marks) menus with (10 Marks) ult in form (06 Marks) (04 Marks) e and delete (10 Marks) (05 Marks)
