GBGS SCHEME

USN		18]	ME45B/18MEB405
		Fourth Semester B.E. Degree Examination, July/A	ugust 2022
		Metal Casting and Welding	A.
<i>T</i> D:			4
1111	ie: .	: 3 hrs.	Max. Marks: 100
	N	Note: Answer any FIVE full questions, choosing ONE full question fr	om each module.
1	0	What is costing? Draw the flav short of carting was and	(0.7.3.7
1	a. b.	81	(07 Marks)
	c.	. Briefly explain the properties of foundry said.	(06 Marks)
		OR	
2	a.		machine. (06 Marks)
	b.	The state of the s	
			(08 Marks)
	c.	. What is coring and gating? List the types of cores and gates used in c	asting. (06 Marks)
		Module-2	
3	a.		-
	1	principle of Electric Arc Furnace.	(08 Marks)
	b.	. With neat sketch, explain the construction and working principle of c	upola. (12 Marks)
		OR	*
4	a.		(07 Marks
7	b.		(06 Marks
	c.		
	٠.	sketch and explain the working principle of continuous easting proce	(07 Marks
		Module-3	
5	a.	1771 · · · · · · · · · · · · · · · · · ·	l solidification.
			(07 Marks
	b.	. List the casting defects. Explain the causes and remedies for shrinkag	ge and hot tear defects.
			(07 Marks
	c.	. Mention the advantages and limitations of casting process.	(06 Marks)
		OR	
6	a.		lications of aluminium
U	u.	castings.	(07 Marks)
	b.		

Important Note: 1. On completing your answers, compulsorily draw diagonal cross lines on the remaining blank pages. 2. Any revealing of identification, appeal to evaluator and /or equations written eg, 42+8 = 50, will be treated as malpractice.

practice.

Sketch and explain Stir Casting Process. Also mention advantages and disadvantages.

Module-4

What is welding? Mention the classification of welding methods.

With a neat sketch briefly explain "Submerged Arc Welding".

Sketch and explain "Tungsten Inert Gas" (TIG) welding.

(06 Marks)

(07 Marks)

(06 Marks)

(07 Marks)

(07 Marks)

8 a. With neat sketch, briefly explain the principle of resistance welding. (07 Marks) b. Distinguish between spot welding and seam welding. (06 Marks) c. Sketch and explain "Heat of Carbon content on structure and properties of steel with respect to welding. c. Briefly explain Shrinkage and Residual Stresses in welds. (06 Marks) OR 10 a. Sketch and explain the principle of "Gas Welding". (06 Marks) b. Differentiate between Soldering, Brazing and Welding. (66 Marks) c. Sketch and explain the principle of X-ray radiography. ****** 2 of 2				OR Marian and two
advantages and disadvantages. b. Distinguish between spot welding and seam welding. c. Sketch and explain "clectron beam welding." 9 a. Sketch and explain "Heat Affected Zone (HAZ)" during welding. b. Explain the effect of carbon content on structure and properties of steel with respect to welding. c. Briefly explain Shrinkage and Residual Stresses in welds. OR 10 a. Sketch and explain the principle of "Gas Welding". b. Differentiate between Soldering, Brazing and Welding. c. Sketch and explain the principle of X-ray radiography. ******		8	a.	With neat sketch, briefly explain the principle of resistance welding. Mention any two
b. Distinguish between spot welding and seam welding. (a) Sketch and explain "electron beam welding." (b) Explain the effect of carbon content on structure and properties of steel with respect to welding. (b) Explain the effect of carbon content on structure and properties of steel with respect to welding. (c) Briefly explain Shrinkage and Residual Stresses in welds. (d) Marks) (d) Marks) (e) Marks) (e) Differentiate between Soldering, Brazing and Welding. (e) Sketch and explain the principle of Y-ray radiography. (e) Marks) (f) Marks) (g) Marks) (g) Marks)		U		dwantages and disadvantages.
Module-5 a. Sketch and explain "Heat Affected Zone (HAZ)" during welding. b. Explain the effect of carbon content on structure and properties of steel with respect to welding. c. Briefly explain Shrinkage and Residual Stresses in welds. OR 10 a. Sketch and explain the principle of 'Gas Welding'. b. Differentiate between Soldering, Brazing and Welding. c. Sketch and explain the principle of X-ray radiography. *****			b.	Distinguish between spot welding and seam welding.
9 a. Sketch and explain "Heat Affected Zone (HAZ)" during welding. b. Explain the effect of carbon content on structure and properties of steel with respect to welding. c. Briefly explain Shrinkage and Residual Stresses in welds. OR 10 a. Sketch and explain the principle of 'Gas Welding'. b. Differentiate between Soldering, Brazing and Welding. c. Sketch and explain the principle of X-ray radiography. ******			c.	Sketch and explain "electron beam welding".
9 a. Sketch and explain "Heat Affected Zone (HAZ)" during welding. b. Explain the effect of carbon content on structure and properties of steel with respect to welding. c. Briefly explain Shrinkage and Residual Stresses in welds. OR 10 a. Sketch and explain the principle of 'Gas Welding'. b. Differentiate between Soldering, Brazing and Welding. c. Sketch and explain the principle of X-ray radiography. ******				Module-5
b. Explain the effect of carbon content on structure and properties of welding. c. Briefly explain Shrinkage and Residual Stresses in welds. OR 10 a. Sketch and explain the principle of 'Gas Welding'. b. Differentiate between Soldering, Brazing and Welding. c. Sketch and explain the principle of X-ray radiography. ***** (86 Marks) (98 Marks) *****				(0/ Marks)
welding. c. Briefly explain Shrinkage and Residual Stresses in welds. OR 10 a. Sketch and explain the principle of 'Gas Welding'. b. Differentiate between Soldering, Brazing and Welding. c. Sketch and explain the principle of X-ray radiography. ***** (06 Marks) (08 Marks) (08 Marks)		9		The affect of carbon content on structure and properties of steel
OR 10 a. Sketch and explain the principle of 'Gas Welding.' (06 Marks) b. Differentiate between Soldering, Brazing and Welding. c. Sketch and explain the principle of X-ray radiography. ***** (08 Marks) ******			D.	1din a
DR 10 a. Sketch and explain the principle of 'Gas Welding'. b. Differentiate between Soldering, Brazing and Welding. c. Sketch and explain the principle of X-ray radiography. ****** (06 Marks) (88 Marks)			c.	Briefly explain Shrinkage and Residual Stresses in welds.
10 a. Sketch and explain the principle of 'Gas Welding'. b. Differentiate between Soldering, Brazing and Welding. c. Sketch and explain the principle of X-ray radiography. ***** (86 Marks) (88 Marks) *****				
a. Sketch and explain the principle of X-ray radiography. b. Differentiate between Soldering, Brazing and Welding. c. Sketch and explain the principle of X-ray radiography. ***** (06 Marks) ******				OR (06 Marks)
c. Sketch and explain the principle of X-ray radiography. ******		10		Sketch and explain the principle of Gas welding.
				Differentiate between Soldering, Brazing and Welding. (08 Marks)
