ACKNOWLEDGEMENT

This document is very special to me as it marks the completion of my Bachelor's degree and it would not have been possible without all the people, and experiences with them, being my spine throughout my journey.

My parents, Anand Bhadrachar and Roopa Maligachar, for continuing to support me through my journey.

My family, Anuradha Maligachar, Latha Van Hoeckel, Marco Van Hoeckel, Suvan Van Hoeckel, and J Jayachandran, for always being there for me.

My grandparents, for your roles throughout my life. Special shout out to my grandmother, Shanthamma J S, I owe you too much to mention.

My friends, thank you for dragging me to socialize and filling me in on all matters under the sky.

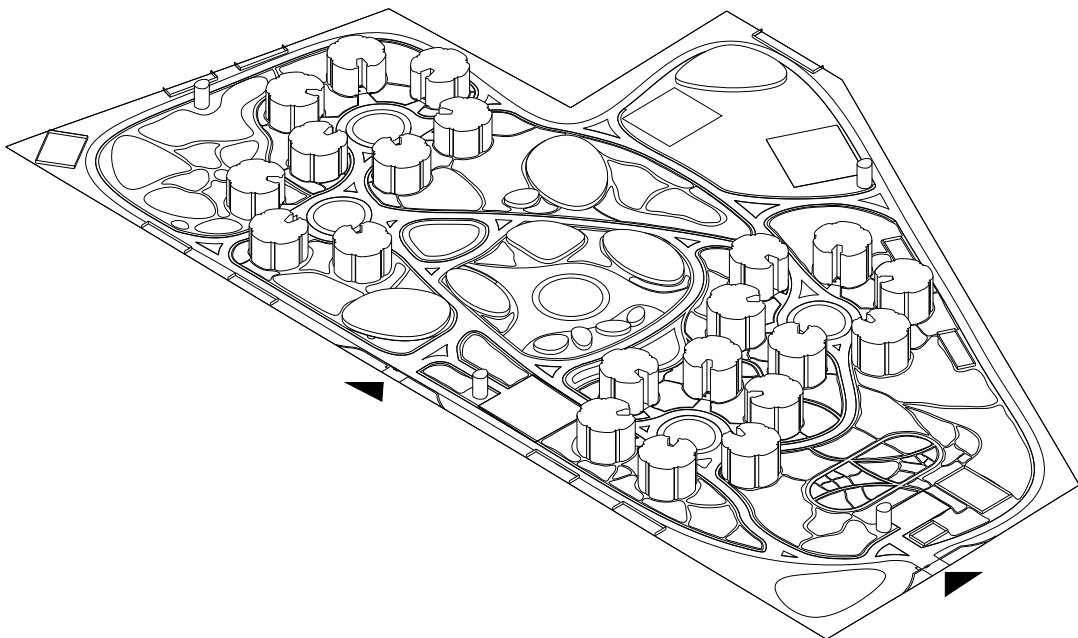

Gagan N Murthy, in a world full of unnecessary haze you always made things visible. Thank you for all the support and motivation.

Thank you to all the faculty who have taught me, my sincere gratitude to all of you.
