ART MUSEUM COMPLEX

ABSTRACT

The Thesis topic I have chosen is “Art Museum Complex”, Because in today’s day and age where people are so engrossed in social media and don’t look up from their device screens, it is imperative that they learn to stop, stand and appreciate beauty in front of them and admire it. This project also highlights the importance of local, traditional art in order to show and teach the masses how they do what they do to prevents their art-forms from going extinct. This in turn generates good revenue for artisans.
