ACKNOWLEDGEMENT

- My warmest and sincerest gratitude to my mentor, Ar Gayathri Pillai, for her support throughout my thesis journey. Her diligence, enthusiasm, and knowledge have been indescribably valuable. I owe her for her guidance throughout the whole process, from research to finalizing the thesis.
- I'd also like to thank Ar Sanjyot Shah, our esteemed Dean, for being a source of inspiration and affirmation.
- A special note of gratitude goes out to Ar Malavika Jayachandran, our thesis coordinator, for her support and encouragement throughout the process.
- Our library staff deserves to be mentioned as well—their collaboration and contributions were indispensable in the completion of my thesis.
- Above all, I owe immense thanks to my family and friends for their constant love, understanding, and support during this challenging endeavour.

ABSTRACT

Despite the growth of industry, many people are still struggling with unemployment, particularly women who lack access to higher education. With a growing population, there is an increasing need for educational facilities that can provide individuals with the skills they need to take advantage of job opportunities or start their own businesses. It is also important for personal growth to enhance existing skills and receive training in traditional crafts.

To address these needs, a comprehensive skill development and vocational training center could be established, offering both industrial and artisanal training to help individuals start their own small businesses. This project would be tailored to the specific needs of the region and would promote community interactions through shared gathering spaces. The center would operate under government guidelines and aims to combat unemployment while providing high-quality education and job oriented training.
