ACKNOWLEDGEMENT

We raise our heart in gratitude to the Lord God Almighty who has been our strength and the driving force behind the successful completion of the project. We wished to express our sincere appreciation and gratitude to all who helped us carry out our research project.

A very special thanks to Prof. Devi Nanjappan-M.Sc (N), ph.D, Principal of Smt. Nagarathamma College of Nursing for her support and timely help during the programme.

The project research has been completed under the expert guidance and supervision of Assistant Professor of the Department of Medical Surgical Nursing, Mrs. PerumallaKeerthiSudha. We are immensely grateful for her inspiring guidance, encouragement and support offered to us from the inception to the completion of the current study. We consider it as a privilege to complete this study under the guidance of such a resourceful and great teacher like Mrs. PerumallaKeerthiSudha, without whom this would not have been possible

We appreciate all the teachers, staff and librarians in the college of nursing for the expert guidance, prompt suggestions and tremendous support during the the time of study. Our sincere thanks to all the experts in the field who have given us their valuable guidance and suggestion for modification of the tool.

Thanks to our fellow classmate of 4th year B.Sc for their constant encouragement and being a source of motivation to complete this study.

Finishing the project would not have been possible without the tremendous help of the respondents, without whom we would have not been able to finalize the work. We are forever grateful to them.

We also wish to convey our gratitude to all the staff at the printers for their hard work and the assistance they offered to us where we could not do it on our own. Their service is highly appreciated.

Last but not least, we would not have been able to begin the project or even finish it had it not been for the help of the Almighty. Therefore, we convey our heartfelt and sincere gratitude to our parents for their unending encouragement and sacrifices to ensure that we could come this far.

ABSTRACT

"A STUDY TO ASSESS THE KNOWLEDGE ON ILL EFFECTS OF SMOKING AND IT'S ASSOCIATED FACTORS AMONG FINAL YEAR B.SC NURSING STUDENTS AT SMT. NAGARATHNAMMA COLLEGE OF NURSING, BENGALURU. "

BACKGROUND :

Objectives :

- To assess the level of knowledge on ill effects of smoking among final year B.Sc nursing students at Smt. Nagarathnamma College of Nursing, Bengaluru.
- To find out the association between knowledge scores with selected demographic variables at Smt. Nagarathnamma College of Nursing, Bengaluru.

Method : Descriptive approach was used to collect data from 30 subjects selected by convenient sampling technique through non probability sampling approach consisting 2 section.

Section A - Demographic variables consisting 4 items

Section B - Structured questionnaire for assessing knowledge level consisting 30 items.

Result : The majority of respondents had adequate knowledge on ill effects of smoking

Overall mean percentage of knowledge score is 60.11%.
