ACKNOWLEDGEMENT

I extend my heartfelt gratitude for the instrumental support I received throughout the completion of my thesis project on "Mixed-use Building in a Transit Hub." Firstly, I want to express my deepest thanks to my guide, Ar. Archana Yadav for her invaluable guidance and unwavering encouragement. Her expertise and constructive feedback have significantly shaped the trajectory and quality of my research.

I also wish to acknowledge my family for their constant support, love, and understanding. Their belief in my abilities provided motivation during challenging times, and I am profoundly grateful for their presence in my life.

Additionally, I would like to express my appreciation to Principal Professor Sanjot Shah for the consistent support and encouragement throughout the project. Your guidance has been pivotal, and I am thankful for the opportunity to learn under your leadership.

To all individuals who directly or indirectly contributed to this endeavour, your support and assistance have been invaluable, and I appreciate every effort made to help me navigate and succeed in this academic pursuit.
