ACKNOWLEDGEMENTS

“ we are all born with a divine fire in us. Our efforts should be to give wings to this fire and fill the world with the glow of its goodness.”

-Dr.A.P.J.Abdul khalam

We raise our heart in gratitude to God Almighty that has been the guiding force behind all our efforts. We wish to express our sincere appreciation and deep sense of gratitude to all those who helped us in accomplishing this task successfully.

First and foremost, we offer our sincerest gratitude to Mr. Krishna Basani- Chairman, Acharya groups and Institutions, Bangalore, for providing facilities to conduct the study and Smt. Shalini Reddy-Director, Admission JMJ society, for giving us opportunity to study in Smt. Nagarathamma College of Nursing. We would like to extend our heartfelt thanks and gratitude to Smt. Nagarathamma College of Nursing who offered us an opportunity to conduct our research project.

We Owe a great deal of thanks to Mrs. Devi Nanjappan-principal, UG Programme of B.Sc. Nursing of Smt.Nagarathamma College of Nursing and to Mrs. Snehalatha Reddy-Vice Principal, Smt. Nagarathamma College of Nursing for guiding us to conduct the research project and to all other Lecturers, Office Staffs and Library Staffs, Smt. Nagarathamma College of Nursing for helping us in all our needs and for their expert guidance, prompt suggestions and tremendous supports during the time of study and my deepest thanks to the participants RC international school, Bengaluru.

We would also like to express our sincere thanks to Mrs.Ramya B M.sc Nursing HOD of Child health nursing, Smt. Nagarathamma College of Nursing. who has been our research guide for this research project for supporting us and guiding us in every steps. We are immensely great full for her inspiring guidance, patience, knowledge, encouragement and support offered to us from the inception to the completion of the present study and allowing us the space to work in our own ways.

Thank you one and all from the bottom of our heart-

With regards from

Ms. Rakshita Kempanna Mane

Ms. Anakha M

Mr. Sarath Prakash

ABSTRACT

PROBLEM STATEMENT:

“A study to assess the effectiveness of plan teaching programme on road traffic accidents (RTA) among early adolescents of R C international school, Bengaluru”.

Background

Road traffic accident are the routine occurrences throughout the world. Thousands of people lose their lives on the roads every day. Many more left with disabilities or emotional scars that they will carry for the rest of their lives. Every hour of every day, forty adolescents die as a result of road traffic crashes. This means that every day another one thousand families have to cope with the unexpected loss of a loved one. Losing a child is never easy. Knowing that a child was lost to a preventable incident may add to the pain and suffering, and can leave families and communities with emotional wounds that take decades to heal. The future of a country is its young people. Road traffic accidents are the leading causes of death globally among 15-19 years while for those in 12-14 they are the second leading cause of death.

OBJECTIVE OF THE STUDY:

1. To assess the level of knowledge of students on road traffic accident.
2. To develop and conduct the planned teaching programme on road traffic accident on early adolescents.
3. To assess the effectiveness of planned teaching programme on road traffic accident.
4. To determine the association between pretest and post test knowledge score of early adolescents and selected demographic variables.

METHODOLOGY:

Descriptive approach was used to collect data from 40 subjects selected by purposive sampling technique through non probability sampling approach consisting 2 sections.

Section A: demographic variable consisting of 10 items.

Section B: Structured questionnaire for assessing knowledge level consisting of 16 items.

RESULT:

The majority of respondents 87.5% had inadequate knowledge on road traffic accidents.
