## **ACKNOWLEDGMENT**

I would like to express my sincere gratitude to all those who supported me in completing this project.

First and foremost, I would like to thank my project guide, Ar. Harsha mam, for her invaluable guidance, encouragement, and constructive feedback throughout the development of this design. Their expertise and insights have been instrumental in shaping the direction of this project.

I am also grateful to the faculty members of Acharya NRV School of Architecture for providing the foundational knowledge and skills necessary to undertake this project. Special thanks to my classmates and friends, whose constant support and collaboration have made this journey both productive and enjoyable.

Thank you all for being part of this journey

## **DECLARATION**

This thesis title, submitted in partial fulfilment of the requirement for the award of the under graduate of Bachelor of architecture is my original work to the best of my knowledge.

The sources for the various information and the data used have been duly acknowledged.

The work has not been submitted or provided to any other institution/ organization for any diploma/degree or any other purpose.

I take full responsibility for the content in this report and in the event of any conflict or dispute if any, hereby indemnify Acharya's NRV School of Architecture and Visveshwaraya Technological University, Belagavi, and its official representatives against any damages that any raise thereof.
