ACKNOWLEDGEMENT

There lies an unending list of people, who stood behind me and it is with their constant support and contribution that I could present my ideas to the utmost level of understanding.

I would like to take the opportunity to express my heartfelt thanks to my guide Ar. NEHA SAHAY for her enduring support and for being patient and lenient in allowing to express my ideas in a complete sense and giving me ample space to work and evolve with every phase of development.

I am also greatly thankful to the Institution ACHARYA NRV SCHOOL OF ARCHITECTURE and the department's principal, Prof. Ar. SANJYOT SHAH, for giving me the opportunity to work on the thesis project.

I would also like to thank my near and dear ones for encouraging me and helping me with innovative ideas all the time.

Lastly, I would like to conclude by thanking my parents, for their immense interest and belief in my work. Their creditable involvement, support, advice and invaluable blessings have been of tremendous help.
