## ABSTRACT

I chose to undertake the design of an tribal village development as my thesis project for several compelling reasons. The tribal village with its **historical significance And cultural relevance**, provides a unique canvas to address multifaceted challenges prevalent in **contemporary rural environments**.

This project allows me to explore the intricate interplay between architecture, social dynamics, sustainability. By reimagining the design and functionality of the tribal village within the rural context. I am aim to contribute to the creation of **vibrant and inclusive public spaces**. This choice Align with passion for architecture, coupled with a deep interest in the evolution of rural spaces and their **impact on community well-being**.

Aims to Redevelopment of tribal village the Tamil Nadu in Kollupalayam. The design addresses the requirements for a functional, efficient, and symbolically significant building that **represents the tribal cultural of the state**. Key considerations include the zoning of spaces for different users, such as public, and tribals, with dedicated entrances to ensure smooth circulation. The layout focuses on creating a balance between public accessibility.

Additionally, the design emphasizes the importance of sustainable architecture, optimizing natural lighting, ventilation, and energy efficiency. The project seeks to create a residential modules and workspace that serves as a functional space for legislative activities while reflecting the state's cultural identity and aspirations for the future.

In essence, this thesis project represents an opportunity for creative exploration, a chance to contribute meaningfully to **rural development**, and a commitment to promoting resilient, inclusive, and sustainable villages through thoughtful **Architectural Interventions**.

## **ACKNOWLEDGEMENT**

I would like to express my deep and heartfelt gratitude to my thesis advisor Madhan N, For her immense help, guidance, and unwavering support throughout the entire Process of researching and writing this thesis. Her expertise, dedication, and patience have been instrumental in shaping my ideas and ensuring the quality of this work.

I would like to extend my application to the principal& faculty at Acharya's NRV school of architecture for their commitment to nurturing a conducive academic environment and providing me with the resources necessary for this research.

I am also grateful to the faculty members of Acharya NRV School of Architecture for providing the foundational knowledge and skills necessary to undertake this project. Special thanks to my classmates and friends, whose constant support and collaboration have made this journey both productive and enjoyable.

Thank you all for being part of this journey
